SUPPORTING YOUR WORK IN INFANT
MENTAL HEALTH

ABOUT US

Our mission is to promote understanding about infant mental health (IMH) and its importance, and to support the continuing professional development of all practitioners, early years workers, educators and students working to improve outcomes for parents, babies and toddlers.

AiMH UK, which was founded in 1996 and is an affiliate of the World Association for infant mental health (WAIMH), is a not-for-profit organisation and our primary function is to contribute to the raising of standards of IMH practice.

WHAT WE DO

- Raise awareness of the importance of Infant Mental Health for the child's future development
- Bring together practitioners working to promote the well-being of infants and toddlers in local AiMH UK hubs
- Provide CPD training events and conferences, delivered by experts in the field of infant mental health to update professional practice
- Provide practitioners with access to a range of resources that will improve their practice including the AiMH UK Best Practice Guides, the IJPE Journal, recommended IMH Books, articles and research papers.

THE AIMH UK IMH CPD PROGRAMME

'Promoting excellence in infant mental health practice'

WHO IS IT FOR?

The IMH CPD Programme **is for all staff working with infants and their parent/s/caregiver** from pregnancy to the second year of life, and who support parent/s/ and or caregiver to promote healthy infant development.

The programme has been designed to help you map your skills, knowledge and practice experience against the UK Infant Mental Health Competency Framework (IMHCF), and to build your IMH Portfolio.

WHY SIGN UP FOR THE IMH CPD PROGRAMME?

- The CPD Competency Frameworks provides the national standards to which all practitioners should be working
- It provides practitioners with guided support to assess your current skills and identify any skill gaps
- It also provides practitioners with recognition of their IMH skills that you can use for your personal development and to demonstrate competencies to employers
- It will raise the standard of IMH practice nationally.

BUILDING THE IMH COMMUNITY

Membership of AiMH UK and the creation of an IMH Portfolio encourages all practitioners:

- to develop an infant mental health frame of mind, in which all practitioners focus on both the perspective of the baby (including the non-verbal infant) and that of the parent. This helps perinatal and IMH practitioners to recognise the parent-infant (P-I) relationship as a dynamic system, and to be able to promote the P-I relationship
- to help ensure the workforce is suitably skilled to identify need and deliver care to parent/s/caregiver who are pregnant or have a baby, and to both promote the mental health of the baby and provide access to appropriate evidence-based treatment where there are problems, as outlined in the Healthy Child Programme (DH, 2009;2014)
